

METROPOLISES AND CITIES IN TRANSFORMATION

Rethinking our future together

8 / 13 NOV 2021 · GUANGZHOU CHINA

SUB FORUM 1 – MODERNIZING URBAN GOVERNANCE WITH NEW TECHNOLOGIES AND NEW INFRASTRUCTURES

Friday 12th November, 9:30 - 11:30 (Beijing time)

Context: Cities rely on three drivers, i.e. **reform, technology, and culture**, to enhance its capacity for sustainable development. It has become a global consensus to promote the reform of urban governance system and build governance capacity through technological innovation. The COVID-19 pandemic has further highlighted **the important role of technologies and related infrastructures in effectively fighting the virus in cities**, and, at the same time, exposed the digital divide caused by unbalanced technological development in cities around the world. This sub-forum, with focus on **the critical role of new technologies and new infrastructures in urban governance in the post-COVID-19 era**, will discuss challenges, and share experiences and perspectives, on a broad basis.
